

Krishna Dubey

Full Stack Developer

+91-9149131524

Gurgaon, Haryana, India

krishnadubey0007@gmail.com

Software Engineer with 1.6 years of experience building modern, scalable web applications, emphasizing clean code and performance. Proficient in PHP, CodeIgniter, React.js, and Next.js with a solid foundation in data structures, algorithms, and OOP. Experienced in RESTful API design, MVC architecture, MySQL optimization, and CI/CD pipelines. Actively expanding expertise in cloud platforms (AWS/GCP/Azure), Docker, Kubernetes, and AI-enabled/LLM-driven applications to drive real-world business impact.

Work Experience

Software Developer

Deep Connection Innovation Pvt Ltd | Gurgaon, India

Apr 2025 - Present

- Architected dynamic web applications using PHP and MySQL, delivering robust and maintainable backend systems aligned with MVC best practices.
- Developed RESTful APIs enabling seamless frontend-backend communication, improving integration efficiency and reducing response latency.
- Collaborated on system design decisions that enhanced scalability and long-term maintainability of core business solutions.

Software Developer Intern

Stackerbee Technologies | Dwarka More, Delhi, India

Nov 2024 - Mar 2025

- Engineered a suite of reusable React.js components utilizing advanced patterns such as hooks and Context API, enhancing code maintainability and streamlining the overall architecture by reducing duplication throughout the codebase.
- Enhanced application responsiveness with mobile-first design principles; resolved 50+ UI/UX bugs, measurably improving user satisfaction.
- Leveraged CI/CD pipelines for automated deployments

Education

Hindustan Institute of Management & Computer Studies

Master of Computer Applications (MCA) | Mathura, India

Oct 2022 - Aug/2024

Graduated with a GPA of 8.0/10.0.

Uttam Group of Institute of Technology & Management

Bachelor of Computer Applications (BCA) | Agra, India

Jul 2019 - 2022

Earned a 75.81% score (on a 100-point scale) for overall performance.

Skills

Hard Skills

JavaScript (ES6+), PHP, SQL, HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, jQuery, CodeIgniter 4, REST API, MVC Architecture, MySQL, Query Optimization, Normalized Schema Design, Git, GitHub, CI/CD Pipelines, Vercel, Hostinger, Docker (Familiar), VS Code, XAMPP, Postman, Linux/Unix, Data Structures & Algorithms, OOP, System Design Basics, LLM fundamentals, AI-enabled system concepts, data-driven applications

Soft Skills

Strong programming fundamentals across JavaScript, PHP, and SQL with solid OOP and algorithmic thinking., Proven comfort with ambiguity and fast-paced learning environments through internship and production-level roles.

Projects

Kiddicove – Child Development Center Platform

Next.js 14, Tailwind CSS, PHP, REST API

- Built a full-stack child development application using Next.js 14 with server-side rendering (SSR) for improved SEO and page performance.
- Created a scalable component-based architecture with Tailwind CSS ensuring cross-browser compatibility and responsiveness across 15+ device breakpoints. Integrated RESTful PHP APIs to handle dynamic content, form submissions, and data persistence with MySQL.

Finance Management System

PHP, CodeIgniter 4, MySQL, JavaScript

- Engineered a comprehensive finance tracking application with full CRUD operations for managing financial records and transaction categorization.
- Architected a normalized MySQL database with optimized indexing strategies for fast query performance, data integrity, and future scalability. Implemented role-based access and secure session management following standard security best practices.
