SUMMARY

Full Stack Developer specializing in modern web application development with expertise in PHP, CodeIgniter, React.js, and Next.js. Experienced in architecting RESTful APIs, implementing payment gateway solutions, and creating responsive user interfaces. Proficient in MVC architecture, database optimization, and cloud deployment. Passionate about building scalable, high-performance web solutions with clean code and best practices.

EDUCATION

Hindustan Institute of Management & Computer Studies

Master of Computer Applications (MCA), GPA: 8.0/10.0

Farah, Mathura, India

Oct 2022 – 2024

Uttam Group of Institute of Technology & Management

Bachelor of Computer Applications (BCA), 75.81%

Agra, India

Jul 2019 – 2022

EXPERIENCE

Software Developer

Deep Connection Innovation Pvt Ltd

Apr 2025 – Present

Gurgaon, Haryana, India

- Architected dynamic web applications using PHP and MySQL, serving 1,000+ daily users with 99.5% uptime
- Developed RESTful APIs enabling seamless frontend-backend communication, reducing data transfer latency by 40%
- Incorporated Razorpay payment gateway with webhook handling and transaction reconciliation, processing multiple monthly transactions with zero security incidents
- Engineered responsive interfaces using HTML5, CSS3, JavaScript, and Tailwind CSS, achieving 95+ Lighthouse scores across all devices
- Optimized database queries through indexing and refactoring, improving page load times by 60% (800ms to 320ms)
- Managed deployment pipeline including hosting configuration, DNS management, SSL implementation, and resolved production issues within 2-hour SLA

Software Developer Intern

Stackerbee Technologies

Nov 2024 – Mar 2025

Gurgaon, Haryana, India

- Built 20+ reusable React.js components following modern patterns including hooks and context API
- Enhanced responsiveness with mobile-first design and resolved 50+ UI/UX bugs, improving user satisfaction by 35%
- Collaborated with engineering teams on feature implementation and testing using Git workflow and Agile methodologies
- Merged third-party APIs and established frontend-backend connectivity patterns, reducing API call failures by 25%

PROJECTS

Kiddicove Child Development Platform | Next.js, Node.js, React, Tailwind CSS, Razorpay

2025

- Built full-stack e-commerce application using Next.js 14 with server-side rendering, achieving 90+ Lighthouse score and supporting 500+ concurrent users
- Implemented secure Razorpay payment processing with end-to-end transaction lifecycle including refunds and automated confirmations
- Created component-based architecture with Tailwind CSS ensuring cross-browser compatibility and mobile responsiveness across 15+ device breakpoints

Finance Management System | PHP, CodeIgniter 4, MySQL, JavaScript

2024

- Engineered finance tracking application with complete CRUD operations for managing financial records and transaction categorization
- Architected normalized MySQL database with optimized indexing, enabling sub-100ms query execution for reports with 10,000+ records
- Planned intuitive dashboard interface with Chart.js data visualization, providing real-time financial insights and automated monthly reporting

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery **Backend:** PHP, CodeIgniter, Node.js, REST API, MVC Architecture, CRUD Operations **Database:** MySQL, MongoDB, Query Optimization, Data Modeling

Tools & DevOps: Git, GitHub, VS Code, XAMPP, Postman, Web Hosting, SSL/TLS, CI/CD

Other: Razorpay Payment Gateway, Webhooks, Responsive Design, Performance Optimization
